4% joined the military

Livvie May '18
Classics major

QA analyst, Relativity

"As a QA analyst, I identify and test the range of scenarios a user might encounter in our software, from core workflows to edge cases, workflow variations, and error scenarios. My goal is to find the holes in our logic and the perspectives we haven't accounted for; both of these, to me, have always seemed tied to the skills required to construct a critical argument or dismantle the argument of another critic. Classics prepared me well in both respects!"

Curriculum requirements

Classics major

5 courses in either Greek or Latin, third-semester level and above
